## New Homes for Old!

For real thrills, there is nothing that can quite compare with remodeling your home. You can combine rooms for more space. Or an old porch disappears and becomes a cozy sun-lounge. Or waste attic space is reclaimed into a snug extra bedroom. Or an old-fashioned inconvenience gives way to a modern step-saving kitchen. Maybe you merely add a few electric outlets or a new plumbing fixture. And behold! The old home takes on a new beauty. New comfort! New convenience! New value!

Opportunity beckons YOU to modernize YOUR home. The Dominion Government's Home Improvement Plan offers you a low cost, easy-to-pay loan up to \$2,000. Start planning NOW! It's the opportunity that comes only once in a lifetime. Make it pay by contracting the best workmen, purchasing the finest materials and fixtures, and last, but very important, don't let a "retired" estimate and my firm cooperating with the Government's Official Edmonton Committee will give you one, gladly, and free.

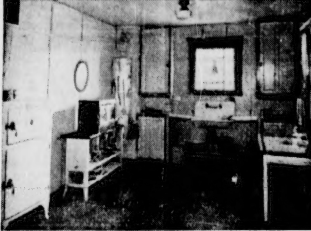

### FREE — SEND TODAY!

Portfolio of Home Improvement Ideas off the press. Reserve your copy now. Tells how to plan a workable kitchen, how to get a good paint job, plumbing, electrical and heating data. Filled with practical and usable ideas. Prepared from the consumer viewpoint. Edited by Ada A. Lott R.R., H.E. Consultant, Home Economics and Consumer Problems.

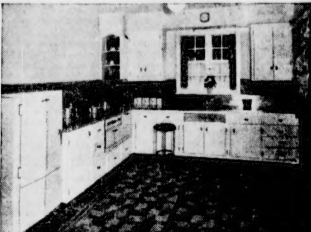

Also, sent free, (ready soon) directory of firms cooperating with the Government's Official Local Committees. These firms will assist in the Home Improvement Plan. Plan sections and give you free "certified" estimates.

Address: J. L. Melish, Secretary, 480 Taylor Road, Edmonton, Alberta.

## Before And After

BEFORE: A kitchen in Valois, Que., as it appeared last November. There are thousands just like it all over Canada. Clean, but old-fashioned, inefficient and hard to work in.

AFTER: The same kitchen after its owner had it modernized under the Home Improvement Plan. Convenient, labor-saving and a joy to work in. This kitchen has the distinction of being the first in Canada to be completed under the H.I.P.

## Committee Formed To Aid Scheme Of Home Improvement

The administrative set-up of the Dominion Government's Home Improvement Plan has been broken down into local units to enable the government's program to function more quickly in local communities.

A. J. Brown has been appointed chairman, and J. L. Melish secretary, of the Edmonton committee. Banks, the building industry, retailers, and others are being asked to co-operate to the utmost of their ability.

Mr. Brown stated that it was his belief that the Home Improvement Plan was an infinitely interesting project with general recovery that even those channels of apparently least connection with building should keep fully informed and lend every effort to encourage and accept and employment of facilities that have been reached.

### PLAN SPONSORED

Recognizing the need of protecting the consumer against unnecessary price advances, and in a free market, for slowly but surely building material prices are advancing, the local committee is appointing a plan which provides the prospective home improver with "certified" estimates which are obtainable free from approved firms. A "certified" estimate comprises a sticker attached to the usual written estimates given by carpenters, plumbers and material firms, etc. This sticker has the official emblem printed on it and also as the estimate has been checked and approved and the prices quoted are guaranteed for a stated period of time. Long enough for the consumer to continue with the planning and arrange financing and get his work underway. Evidence of the wide acceptance of the plan can be seen through the number of firms who have accepted it.

ADDITIONAL HOME IMPROVEMENT NEWS WILL BE FOUND ON PAGE SEVEN.

Portfolio of Home Improvement ideas which will be distributed to interested parties free. The subject matter in the portfolio has been culled from the Dominion Government's Official Edmonton Committee.

## NOW!... You Can Paint Your Home on EASY TERMS!

Such a wonderful opportunity to renew and improve your property, both interior and exterior, is not likely to occur again. Make the most of it! Call in! Ask us about particulars.

### Inspection Of Home Needed To Prevent Losses

Structures begin to disintegrate as soon as they are exposed to the action of the elements or are placed in operation. It is axiomatic that buildings and houses must be maintained or eventually they will become dilapidated and unsuitable. A system of periodic examination of all parts of the structure including

ing equipment is at the best insurance for the owner against a recession in his investment. Inspections should be made annually at least; it has been found that semi-annual inspection yields a dividend of real value to the owner in the long run. Complete inspection should be made twice a year of every house that has been neglected for a year or longer.

### Chairman

A. J. BROWN, prominent in Edmonton business circles and active member of the Edmonton branch of the Canadian Manufacturers' Association, who has been named chairman of the Edmonton committee under the Dominion government's home improvement plan.

## New Rooms from Waste Space in the Basement

Here's a place where wonders may be worked in Home Improvements at economical cost — and it's not such a new idea — only, GAS HEAT has made it possible and practical — fitting up the basement of the home so that it can be used for something else than storing the furnace and laundry tubs and dirty fuel.

## MODERNIZE WITH GAS

SPEED THEM UP AND YOU SPEED PROSPERITY

Don't let Winter Stop You!

... many indoor jobs can be done comfortably under the HOME IMPROVEMENT PLAN

Painting and decorating, the building of a breakfast nook, extra bedrooms, a game room or a playroom, the installation of new cupboards, the laying of new floors, the installation of new plumbing—these are typical indoor improvements that can be executed most economically in winter. Men and materials are instantly available. There is no delay in the holding up of the "rush" season.

So, why not choose the improvement you want most and have it done now?

Full information on the Home Improvement Plan and what it covers may be obtained from your local committee, your Provincial Chairman, or from the National Employment Commission.

## RITES HELD FOR FORMER MOUNTIE

Conducted by a Mounted Police  
recort the funeral of Fredrick Rich-

Deceased was a prominent citizen of Fort Saskatchewan and was well known in Edmonton. He was born in Dublin, Ireland, the second son of Canon and Mrs. Rudd, and came to Canada at the age of 17 years. He came to western Canada before the province of Alberta had been formed and served in the

He was a member of the Northern Alberta Pioneers' and Oldtimers' Association, and was a member also of the Mounted Police Veterans' Association.

### 3-Year-Old Boy Hit By Skidding Auto After Crash

Two cars, skidding on slippery  
reets, collided at the corner of 122  
root and 103 avenue late Wednes-

where he received attention. He recovered quickly and did not seem to be hurt, police said.

Wilbert Fallis, 10535 101 avenue, as named by police as the driver of the other car involved in the crash.

**Asked to Define Social Credit Dividend Statement**  
By Dr. Morrish

Prospects of a public debate between J. H. Uwehn, Social Credit M.L.A., and Dr. Walter Mevorch, Liberal M.L.A., on Education, took shape Thursday on the local political horizon, as the latter issued a sharp challenge to Mr. Uwehn to make clear exactly what the members of his party meant by the Social Credit dividend.

In a letter to the Bulletin, Mr. Uwehn had rebuked both Dr. Mevorch and Gerald O'Connor, M.L.A., for statements they had made at the annual meeting of the Education provincial Liberal Association Thursday at the McLeod

## HOUSING ACT UNDER FIRE IN COMMONS

Measure Does Not Reach  
Poor Man Most In Need  
Of Aid

OTTAWA, Feb. 11.—Moderately priced houses are now being erected under the Dominion Housing Act, the Act is being used as an excuse to make a sale and nothing more. Many useful housing schemes have been tried.

This was the way Hon. Charles Dunning minister of finance, summed up the housing situation in the House of Commons yesterday as he made a statement on the Housing Act.

Mr. Dunning said the government had been working hard to build their own houses.

Mr. Dunning said the present Housing Act and the Home Improvement Act did not do much for the people who need it most.

Mr. Dunning said the government had been working hard to build their own houses.

Mr. Dunning said the government had been working hard to build their own houses.

## Parkyakarkus Wed

Harry Einstein, better known to radio fans as comedian "Parkyakarkus," and film actress Thelma Leeds, 33, were wed at Hollywood this week.

Their romance was one of eight months, after they first met on a movie picture set in the film industry. With a honeymoon in Mexico planned, it was Einstein's second marriage and Miss Leeds' first.

Mr. Einstein, 33, is a comedian and actor. He has been married twice before.

Miss Leeds, 33, is a film actress. She has been married once before.

The couple were wed at Hollywood this week.

## LISBON HRIS BOMB IN LAP OF DIPLOMATS

Serves Notice Spanish Border  
Will Not Be Put  
Under Control

LONDON, Feb. 11.—Portugal there, a bombshell into "hands off Spain" efforts here last night by announcing they will not accept the international control of her Spanish border, but made reservations regarding participation by the Soviet fleet.

Immediately Charles Corbin, French ambassador to Great Britain, and representative of anti-communist forces, said France accepted the control of her Spanish border could not be maintained if the Portuguese attitude left a wide breach in the system of control planned to make impossible intervention of other powers in the Spanish civil war.

Portugal's reply was not expected today, agreed to naval control of Spanish waters by international fleet, but made reservations regarding participation by the Soviet fleet.

The Portuguese delegate agreed to submit immediately to his government a plan for control of the Portuguese ports, and to ask for a "Spanish" fleet.

The French ambassador said that the Portuguese attitude left a wide breach in the system of control planned to make impossible intervention of other powers in the Spanish civil war.

## MORE ABOUT EATON'S

"But Beauty Vanishes..."

A depressing enough philosophy to apply to the best, but in this case it is the life of one of the new books. Did you read "The Beautiful Vanishes" by H. G. Wells? It was one of the last of his hits, but that clever young author, Richard Butler, has written a sequel. This is the sequel. Just one of the many new arrivals on the London Library shelves. "The Beautiful Vanishes" by H. G. Wells. It was one of the last of his hits, but that clever young author, Richard Butler, has written a sequel. This is the sequel. ## SWEEPING POWER PROPOSED FOR POLICE FORCES

REGINA, Feb. 11.—Physical fitness as well as ability to drive is being considered by the provincial government in new regulations in connection with the Police Act.

Police officers would have to pass a physical test before being authorized to carry a certificate of efficiency. Failure to pass would result in a police officer being ordered to undergo a course of physical training.

In the campaign for safeguarding life against motor accidents, the government considered with R.C.M.P. and civil police for suggestions in this connection. There will be no physical test for the police.

The model \$200 house would have living room, dining room, kitchen, bathroom, and central heating. The house would be well insulated and well constructed.

The department had been considering for making the regulations too rigid. Mr. Dunning said the government had been working hard to build their own houses.

## INVENTIVE MIND OF WOMAN GOES TO SMALL THINGS

OTTAWA, Feb. 11.—Woman has an inventive mind as well as a practical one.

Of 7500 patents issued here last year, only 38 were made by women.

Investigation showed women's minds do not invent large or important things, but rather the little things that make life easier.

Several patents were issued for improvements in household appliances and in the way of doing things.

Some of the patents were for improvements in the way of doing things.
